## Private School Covering Curriculum Selection Form

Covenant Christian Academy will provide as much or as little curricula counseling as you desire. However, the final selection is your responsibility. Careful review of materials available should aid in the selection of your curricula. Curriculum materials cannot be selected in just a few minutes; it often takes hours or days of review.

Families are required to teach, at minimum, Language Arts, Math, Science, and Social Studies. We also recommend Art, Bible, Foreign Language, Music and Physical Education.

If your child is being taught Science or Social Studies via Covenant Christian Academy group classes, simply write "CCA" under Publisher or Title.
